

Afloat

You very own safe heaven

Why Afloat?

"Social ties have a salutary effect on mental health and psychological well-being." (Barnett, 1998). Believing in this and seeing issues LUMS students faced. We developed Afloat. Afloat is here to help fellow Luminites who are lonely on campus and can't make new friends. Afloat also aims to help people find the right therapist tailored to their needs. Even more, Afloat has its own community center that allows LUMS students to discuss any topic of their choice.

Afloat is your very own safe heaven, developed with love by your fellow Luminites.

- ☒ Find friends
- ☒ Find therapist
- ☒ Trusted Community center
