

Afloat

A mental health app for people struggling to find friends or a right therapist

GROUP 10

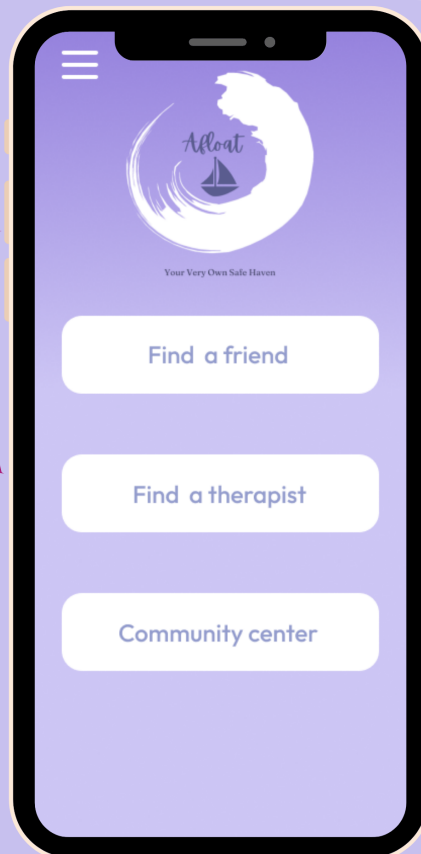

FIND A FRIEND

Afloat will bridge the gap for all the individuals that are unable but want to find friends. Our system will give you friend recommendations based on similar interests so that you have something similar to bond about.

FIND A THERAPIST

Afloat helps users find the right therapist for themselves based on their needs. Users can filter out the therapists according to their requirements, and our easy-to-understand UI will give all the information about the therapist in one glance.

COMMUNITY CENTER

Afloat aims to create a community where people can talk about different topics. It enables people to reach out for help and assistance. Being part of a community can have a positive effect on emotional well-being.

WHY AFLOAT?

Afloat is a mental wellness platform that facilitates students in getting the professional help they need while also giving them a space to interact and connect with new people to cater to this social need.
